# Who We Are

De Novo Legal is the premier document review and electronic discovery solutions provider for law firms and corporate legal departments. With offices located across the United States, De Novo Legal provides a single point of accountability for the entire lifecycle of an electronic discovery project (processing, hosting, document review and production), wherever required.

Our goal is to become a strategic partner with our clients and provide an efficient and cost effective solution. We strongly believe in client service and strive to always go “above and beyond” for our clients.

## People

We pride ourselves on providing top quality talent to our clients. De Novo Legal’s experienced recruiting team conducts in-depth interviews with each attorney and paralegal so we can match the best candidate with our client’s unique requirements. We take the time to meet with each applicant and perform reference, background and conflict checks before they can be put to work. Our geographic diversity also enables us to rapidly mobilize large teams of attorneys and paralegals anywhere in the country.

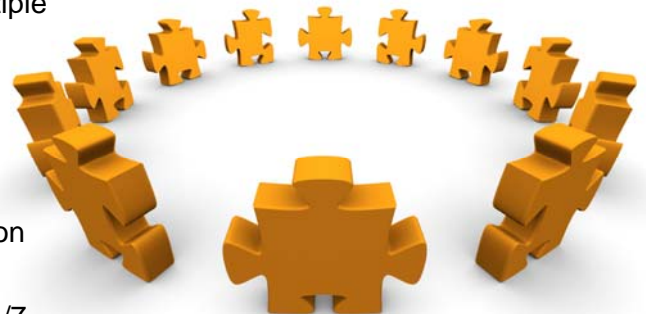

As a premier document review solution provider, we proactively train our attorneys and paralegals on the latest software, saving our clients time and money by providing attorneys that have already been trained on the latest and most popular document review tools.

## Project Space

De Novo Legal has the largest national platform of document review space available. Our facilities are scalable and provide project space for multiple 5 to 150+ contract attorney projects. Our bright and open plan project space, complete with windows enabling natural light, enhances the productivity and morale of our contract attorneys and paralegals.

We provide the latest technology platforms complete with desktop computers, large flat panel monitors, redundant T-1 lines and connection to our secure network. Additionally, at each location we provide administrative /concierge services, a dedicated technology staff and 24/7 security.

# Project Management

De Novo Legal's Project Management Team consists of industry experienced attorneys and Litigation Support professionals with years of knowledge and proven expertise. Our Project Managers can be utilized as an excellent supplement to in-house staff and offset the daily workload of large projects.

We can provide project management resources from the inception of a project through the final phases of production, deposition and all aspects of case management. De Novo Legal's Project Managers perform quality control and manage productivity for the project review teams.

Having one partner throughout the entire duration of a matter provides a single point of accountability and enables our clients to complete their project in a timely and cost efficient manner.

# Electronic Discovery

De Novo Legal Electronic Discovery offers complete solutions for electronic data processing, hosting and production. We are capable of operating small and large scale projects through our top tier technology platform and with our experienced operations team who have managed some of the largest electronic discovery projects in history.

De Novo Legal Electronic Discovery offers a suite of review tools designed to fit a variety of case needs. However, De Novo Legal is vendor neutral and will support any review tool required by our clients.

# Single Point of Accountability

We believe that an integrated approach to electronic discovery and document review provides the most value for our clients. By having one organization responsible for the entire electronic discovery project lifecycle, quality and efficiency is enhanced, cost is reduced and predictable budgets can be established at the outset of any matter.

## De Novo Legal Electronic Discovery

### Who We Are

In addition to our full service document review services and capabilities, De Novo Legal offers complete electronic discovery services. By offering processing, hosting, document review and production with a single point of accountability, we can provide an efficient, timely and cost effective solution. It's what we call **Integrated E-Discovery**.

De Novo Legal Electronic Discovery is committed to excellence from the earliest stages of discovery through production and beyond. By offering the industry's "best of class" technology platforms coupled with our experienced team, we are able to assist our clients with all of their discovery needs from small projects to large complex matters.

Our company vision is driven by our commitment to delivering extraordinary results and client service – always striving to go "above and beyond". This includes 24/7 accessibility and responsiveness, with our clients concerns and interest taking top priority.

# Our Team

De Novo Legal Electronic Discovery's team of experienced professionals has managed some of the largest E-Discovery projects in history. Our project management team has managed cases under the revised federal rules and has dealt with the challenges of the ever changing demands of electronic discovery. This experience enables us to advise our clients based upon real experience. And, because we have all worked at a large firm or a major corporation, we truly understand our clients needs and expectations. We commit to meeting, and making every effort to exceed, our clients' expectations on every matter, every time.

# Integrated E-Discovery

De Novo Legal Electronic Discovery has assembled a world class team of people and technology that enable us to handle any matter for our clients. Our document review services coupled with our E-Discovery solutions offer our clients an integrated solution - a single point of accountability providing efficient and cost effective results.

# Our Technology

Our technology foundation is built upon a world-class infrastructure designed specifically to support our processing and review platforms. Because of this large investment, we can begin processing our client's data within hours of receipt and we can support large review projects with hundreds of attorneys with ease.

We have selected hosting solutions which we believe are the best-in-class. These tools have been time tested, deliver solid performance and present an original offering of review options that can suit almost any matter. We process natively or to TIFF and can handle most foreign languages.
